

**Jessica Tracy is a certified Jungian Coach with a passion for guiding individuals on a journey of self-discovery.** By blending the psychological principles of Carl Jung with tangible Jungian coaching tools, she creates a compassionate and encouraging space for self-exploration and individuation. Through active imagination, shadow work, archetypal exploration, expressive arts, and other transformative methods, she helps clients uncover their hidden potential and rewrite limiting narratives to create a preferred future.

Jungian coaching also offers a structured approach to understanding symbolic images, somatic feelings and emotions presented during psychedelic experiences. Leveraging Jungian coaching tools and psychedelic facilitator techniques, Jessica helps clients uncover hidden symbolic meanings, explore emotional and somatic experiences, gain insights from innate inner wisdom, and reconnect with their authentic Self.

Jessica's core values of integrity, authenticity, creativity, and courage underpin her practice, facilitating an empathetic and transformative experience for her clients.

Jessica accepts private pay with current openings for virtual sessions. Complimentary discovery sessions can be scheduled [here](#) and psychedelic integration sessions can be scheduled [here](#).
